

# SMART COVER

DAMP PROOF PROTECT

## EXTERIOR

Do not apply during rain or extreme temperature. Avoid excessive surface abuse which would lead to puncturing of the coating film. Corners and joints of drain pipes, channels etc to be treated with cement sand mortar prior to coating application. SmartCover corners & tapes are recommended to be used at corners, flashing areas, joints & drain for better reinforcement. Effective on all exterior surfaces like terrace, chajja, vertical wall etc.
